CEBioS COP14 SIDE EVENT: CAPACITY BUILDING FOR BIODIVERSITY

The CEBioS programme of the Royal Belgian Institute of Natural Sciences (RBINS) carries out capacity building for partners of the Belgian cooperation in the field of biodiversity conservation and sustainable management linked to poverty eradication.

It works in the framework of international obligations of Belgium under the Convention on Biological Diversity (CBD), the EU biodiversity strategy to 2020 and the Belgian biodiversity strategy 2020.

PROGRAMME

CEBioS and partners from Benin, Burundi, Morocco, Niger and Uganda will present the results of the CEBioS strategy. The effectiveness of this model of capacity building will then be discussed.

- Luc Janssens de Bisthoven (coordinator, CEBioS): *CEBioS Strategy and results of 5 years of capacity building, including the EVAMAB project (UNESCO-MAB & BELSPO)*
- Maman Sani Issaka (CHM Focal Point, Niger): *Traditional medicine and the Nagoya Protocol: the case of Niger*
- Jean-Didier Akpona (researcher and communication specialist, Benin): *The importance of awareness raising in the valorisation of research achievements in Benin*
- Longin Ndayikeza (researcher, OBPE Burundi): *Productivity and valorisation of edible wild mushrooms from Burundi's open forests*
- Mostafa Madbouhi (CBD and CHM Focal Point, Morocco): *South-South cooperation*
- Adelard Mutombo (CHM NFP, DR Congo): *Education and the "Centre de Surveillance de la Biodiversité"*
- Onesphore Masabo (Biodiversity Research Officer, OBPE Burundi): *Burundi's CHM under the partnership with the RBINS*
