

THE BELGIAN BIODIVERSITY PLATFORM IS A BELGIAN SCIENCE POLICY OFFICE (BELSPO) INITIATIVE. IT IS A NEUTRAL AND INTEREST-FREE SCIENCE-POLICY INTERFACE, PROVIDING CREDIBLE INFORMATION ON BIODIVERSITY SCIENCE. WE ARE A MULTIDISCIPLINARY TEAM OF EXPERTS THAT PROVIDE SERVICES TO SCIENTISTS AND POLICY MAKERS:

Participate in our communities of practice, conferences, experts meetings, trainings, consultations and information sessions. Expand your network, share your knowledge, discover new methodologies, and collaborate with experts from a diversity of fields in a participative way.

MEET other experts

PUBLISH your data

Get your data published in web portals which showcase your datasets and research activities. Publish descriptions of your datasets in scientific journals ('data papers'). Get IT support in organising, cleaning and publishing your biodiversity data. Get funding for the digitisation of your data through our digitisation calls.

Check our news section updated on a weekly basis to be informed on Belgian, European and international funding opportunities.

FUND your research

LINK-UP with policy

We are an interface between the Belgian biodiversity research community and national/ international scientific, policy and science-policy initiatives. We promote the engagement of Belgian experts in scientific support activities of biodiversity-related conventions and initiatives. You can follow biodiversity policy developments by consulting our website.
